COP21: The Club CO2 support CCUS

December 2015

PARIS COP21

Climate change and CO₂ management: local solutions for the short term, global solutions for the longer term

The Club CO₂ brings together the actors from industry and research in France in the field of carbon capture, storage and utilization of CO₂.

The Club CO₂ welcomes the holding of the Conference of the Parties, this year, in Ile de France and offers to contribute to discussions and exchanges on climate change to be held on this occasion.

Club members, from SMEs or representatives of large industrial groups or researchers, worked together to develop a position paper address to the French authorities.

Club CO₂ designed an informative video on CCUS: <https://www.youtube.com/watch?v=EKsDMJUIXY8>
